KINGMAN MERCANTILE CO.

Steve Smith is in from Mineral Park.

T. T. Hines and family have moved to Stockton Hill.

For a stylish hat or shoe call on Gaddis & Perry.

Miss Calfee, of Hackberry, spent Sunday in Kingman.

Miss Maggie Fisher has gone to Hackberry to visit relatives.

P. H. McLaughlin came in from the Minnesota mine yesterday.

W. H. Taggart came in from White Hills on Thursday evening's stage.

John Barry is in with thirteen tons of concentrates from the Connor.

Mrs. O. D. Clack and little son are in from White Hills on a visit to friends.

Mrs. James Rosborough spent last Saturday and Sunday in Peach Springs.

We make the prices for this section of the country. **KINGMAN MERCANTILE CO.**

Next week seven or eight miners will commence work on leases on the C. O. D. mine.

Mrs. J. K. Mackenzie and daughter have returned from a two week's visit to Truxton.

Mrs. Charles Logan has gone to Hackberry to visit her relatives. She will remain about three weeks.

Fred Leonard is in from the C. O. D. mine with several tons of ore, which he disposed of to the Arizona sampler.

The photograph gallery has been well patronized by our people this week. Schoman & Kennedy are excellent artists.

Mrs. J. N. Cohenour and children have moved to Kingman from their Pine Springs ranch and will remain here during the winter.

Thomas Tyrrell and Arthur Edwards have a ton of rich silver ore from Wallapai mountain in town and will have it sampled today.

Gaddis & Perry received during the week one car wheat hay, one car alfalfa, one car Gem Otero flour, one car Flagstaff potatoes, one car barley.

Dr. O. P. Hart, the Needles dentist, has been doing a rushing business in his line at the Hubbs House this week. He leaves for home this evening.

C. R. Williams, for many months day operator at Kingman station, has resigned his position and left Thursday for San Diego, where he will in future reside. Mr. Warren takes his place.

Judge Perry was happy last Saturday, having received a telegram that his wife, who is in San Bernardino, was delivered of a baby girl the night previous. Mother and child are getting along nicely.

For the benefit of our readers we publish the time cards of all the stage lines doing business in Mohave county. If incorrect in any particular we would like to have corrections made by manager of the lines.

Business is picking up. This is shown by the freight bills of our merchants. Last week Gaddis & Perry paid to the railroad company for one day's freight \$377.50, and yesterday the freight bill was over three hundred dollars. This is good evidence of business increases.

Ed Imms and Ed Mervin came up from the Big Sandy Wednesday. Mr. Imms brought in a load of sweet potatoes that for size, beauty and flavor exceeded any we have seen imported from California. The editor received one of the tubers that weighed seven pounds.

Some Good Properties.

During the last week J. R. Murphy, the well known mining man and expert, has been visiting some mining properties at Cerbat and Chloride in this county. Among the properties visited and examined were the Pay Roll, Champion and Twins mines, owned by J. M. Murphy, our able and efficient District Attorney. After a thorough examination of the properties, Mr. Murphy informs us that the Pay Roll mine carries the largest body of ore he has seen in any mine anywhere outside of the Comstock lode. The lower tunnel crosscuts the vein which is over twenty five feet in width between the walls. A solid body of ore from twelve to fifteen feet shows up in this tunnel. Assays from this body of ore run from \$4 to \$30 in gold, twelve to twenty-three ounces in silver and 15 per cent to 40 per cent in lead. In the upper tunnel, a small body from two to three feet of similar ore, was the extent of the developments. The recent strike is a new one, and places the Pay Roll among the great coming mines of the territory.

The Champion and Twins mines are in the gold belt near Cerbat and at a depth of one hundred feet shows splendid concentrating ore as the veins increase in depth and they also increase in richness. The Champion mine is a high grade carbonate vein, carrying gold, silver and lead in paying quantities. The Twins at a depth of 100 feet has almost doubled in width, being at the bottom of the shaft over six feet in width. These veins crop out the entire length of the claims and run from five dollars to fifteen dollars in gold, twenty ounces in silver, and from twenty to forty per cent in lead. Judge Murphy may well be congratulated upon his good fortune.

Mining in Mohave county is in its infancy and when the South African bubble is exploded perhaps the belated capitalists will seek investments in legitimate mining in Arizona, and especially in Mohave county. We understand that a Chicago party is negotiating for this immense property.

Commencing Oct. 29th a new time card will go into effect on the A. & P. R. R.

Train No. 1 west bound is due in Kingman at 1.55 a. m.; No. 3 west bound due in Kingman at 5.43 a. m.; No. 2 east bound due in Kingman at 11.52 a. m.; No. 4 east bound due in Kingman at 12.15 p. m.

Trains 1 and 4 will carry U. S. mail cars. No postal clerks on Nos. 2 and 3. West bound mail will be closed at 8 p. m.

GEORGE M. BOWERS,
 P. M.

Elsewhere in this issue we publish the card of the Arizona Central Bank, of Flagstaff, and in this connection would call the attention of our miners and ranchers to the savings feature of this institution. In the first place the bank is among the solid institutions of the southwest and for the interest of the territory every man who can lay away a dollar for a rainy day should patronize this bank.

John C. Frost, president of the Fourth National Irrigation congress, has named the following delegates to represent the cause of irrigation at the Trans-Mississippi congress to be held in November at Omaha: Ex-Governor L. Bradford Prince of New Mexico, Hon. Clark E. Carr of Illinois, Prof. A. C. Magruder of Oklahoma, A. G. Wolfenbarger of Nebraska and Jas. H. McClintock of Arizona.

Frank Langer, the teamster, collided with a base ball last Sunday and as a consequence his face is not so nicely proportioned as it was. Quite a large amount of cuticle was removed from his nose and that useful organ has a distorted appearance. Frank will use his hands to catch a ball hereafter.

Mrs. Mary Harrington returned from Albuquerque the first of the week. While in the Duval City she purchased an entire new outfit of carpets and furniture for her house and as soon as it is put in place she will have the most comfortable rooms in town.

M. E. Paris has been appointed sheep inspector for Mohave county by Gov. Hughes. Mr. Paris is a hustler and an intelligent gentleman, and Gov. Hughes made no mistake when he made the appointment.

We are stacked up on Separator butter again, the best butter ever sold in Arizona. **KINGMAN MERCANTILE CO.**

Mrs. Esther Starkey left Tuesday evening for a visit to her old home in Santa Ana, California, and will remain about ten days.

Mines and Mining.

Silver... 67 1/2
 Copper... 11 62 1/2
 Lead... 3 15

A. J. Coon is in from Mineral Park with a shipment of ore.

The Arizona sampler this week shipped one carload of ore to the Pueblo smelter.

Alex Johnson, who went into the Chemehuevi mountain with the printer dry washer syndicate, has discovered some good looking gold ledges.

The water is being pumped from the Oro Plata shaft and drifts will be run off from the bottom as soon as it has been drained. A nice streak of ore had been struck before the recent shutdown and this will be worked on.

J. H. Johnston has just finished the assessment work on a gold claim in Union Basin. He says that Peter Caffery has a splendid showing in a claim on Stockton Hill, on which he has been at work for some months.

Mr. Wilkinson, the patentee of the dry concentrator, arrived from Los Angeles Sunday morning and left next day with Robert Patterson for the mill in Gold Basin. If Mr. Wilkinson succeeds in making his machine work it will be a great thing for the desert mines, but it does not work Mr. Patterson will put in the cyanide process.

J. B. Holmes is expected from Minneapolis in ten days. He has succeeded in raising enough money to pay off the indebtedness of the Cerbat company and will immediately start up work on the mine and mill. The property is one of the best in Arizona and under a good management would be turning out bullion at a rapid rate.

Charles Sherman has struck an immense rich body of ore in an old claim on the west side of Sherum Peak. At a depth of eight or ten feet he has encountered nuggets of pure silver. The pay streak is about ten inches wide. He already has a nice little stake on the dump and if the streak remains for ten feet farther he will be able to take in the next centennial.

The Temple Bar company have had their machinery examined by Frank Culbertson, an hydraulic engineer, of Prescott. He reports that the machinery will not stand the immense strain that will have to be put on it when attached to the pumps and as a consequence new machinery will have to be put in. It is too bad that the matter was not examined into carefully before so much money had been spent, but it is better late than never.

Kingman Sampling Works.

The Kingman sampling works this week received and sampled the following lots of ore:

G. W. Eaton, four tons from Prince Albert.

A. J. Coon, three tons from Mineral Park.

Frank Dewey, two tons from Norma.

R. T. Root, one ton from Daisy.

Three tons from Fennar.

Larsen & Clack, four tons from Norma.

Chidester & Sweeney, three tons from Norma.

John Barry, thirteen tons concentrates from Connor.

Martin Jiminez, two tons from White Hills.

Shipped two carloads to Pueblo during week.

Silver Knights.

Last Tuesday night organizer John Laffy instituted a lodge of Silver Knights of America in Kingman. There were twenty-nine charter members. Kean St. Charles was elected president of the new order, Anson H. Smith, vice president, Wm. G. Blakely chaplain, J. S. Withers secretary, W. D. Hartley treasurer, P. E. Collings citizen conductor, Frank Abrams inside guard. The lodge is composed of the best citizens of Kingman and will undoubtedly grow rapidly in membership. Mr. Laffy has received a list of fifty-five people of White Hills who are desirous of becoming members of the order and will go out next week to institute the lodge. Let the good work go on.

The Boners were in from the Big Sandy this week with a wagon load of fine potatoes which they disposed of to the Kingman Mercantile company.

We understand that a report has been given out in White Hills and another neighboring town or so that Gaddis & Perry were on their "last legs." To the contrary of the busy individual who is the cause of such report, we will state that our trade and our stock of merchandise and our credit were never better than they are to day. During the year just on the eve of passing away we must admit that we have made some money, while at the same time we trust our friends will not forget the fact that our presence here has kept others from making as much money as they otherwise would have made had we not been here. We will state further that we are here on honest business basis, not to "boast" but to stay, and in the future as in the past, the people will find us liberal and progressive. The old way of doing business (the dutchman's one per cent.) has passed and gone. We saw it pass and pushed it onward. Its funeral sermon has been preached and though a few linger after and long for the old way, still its resurrection is impossible. We promise here and now that in the future we will serve the people with a more complete line of merchandise and at lower figures than they have ever known in the county. **GADDIS & PERRY.**

From London comes the report that the willingness of Japan to accept the Chinese indemnity in silver has caused the white metal to take an upward turn. The surprising feature of the matter is that all the silver product of our smelters has been bargained for for the next six months. No silver can be found on sale anywhere in the world. Why in heaven's name don't those countries having so much silver on hand turn their treasures loose and swamp the country? Yes, silver is going up and if the smelters would hold their product the price of the white metal would go up thirty cents an ounce in sixty days.

The defense of Darrant is the weakest attempt of a brilliant lawyer to save a foul murderer from the gallows we have ever read. Possibly there is something back of all the grandiloquent flourishes with which the defense opened their case, and that something will be sprung in surrebuttal that will annihilate the prosecution, but we doubt it very much. Darrant ought to hang, and hang he will.

P. R. Dwyre, the miner humorist from Providence mountain, is in Kingman and will probably make Mohave county his home, at least we hope he will. Mr. Dwyre is a good miner, but would make a much better newspaper man.

The government expedition that left Diamond Canyon about a week ago for a tour of the lower canyon was shipwrecked in the first rapids it encountered and had to walk to Hackberry after the escape from the river.

B. N. Freeman, the gentlemanly president of the Arizona Central Bank, of Flagstaff, was in Kingman several days this week getting acquainted with our business men.

John Harris is now the happy father of a bouncing baby boy. The little one arrived yesterday morning and both mother and child are getting along nicely.

J. W. Raulings and mother, of Memphis, Tennessee, arrived in Kingman the first of the week. They will occupy the sampler residence during their stay.

Judge Schaefer came in from Los Angeles last Sunday morning and left for the White Hills Wednesday.

The Only

Great and thoroughly reliable building-up medicine, nerve tonic, vitalizer and

Blood Purifier

Before the people today, and which stands preeminently above all other medicines, is

HOOD'S Sarsaparilla

It has won its hold upon the hearts of the people by its own absolute intrinsic merit. It is not what we say, but what Hood's Sarsaparilla does that tells the story:—

Hood's Cures

Even when all other preparations and prescriptions fail.

"Formerly every year I had an eruption on my body, and a kind of biting pain besides. I have had it now for four years every summer, but since I began taking Hood's Sarsaparilla I have had no trace of it. I have taken seven bottles." **FRED FOSTER, 3101 Black St., Denver, Colorado.**

Get HOOD'S

Hood's Pills are tasteless, mild, effective. All druggists.

There is no medicine so often needed in every home and so admirably adapted to the purpose for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it. For sale by **H. H. WATKINS, Druggist.**

A treaty has been signed by the Blackfoot Indians to cede to the government a large section of the Blackfoot Indian reservation. The ceded portion included some of the most valuable mineral land in Montana.

The roadbed of the Atlantic and Pacific railroad is being put in first class condition and it is thought that no trouble will be encountered by the fast train in making time over this road.

STATE OF OHIO, CITY OF TOLEDO, } SS.
 LUCAS COUNTY. }

Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and state aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of CATARRH that cannot be cured by the use of HALL'S CATARRH CURE.

FRANK J. CHENEY.
 Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1895. **A. W. GLEASON,**
 [SEAL] Notary Public.
 Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.
F. J. CHENEY & CO.,
 Toledo, O.

Sold by Druggists, 75c.
 The demand for cattle is active and improving constantly. For good graded cattle the following prices prevail: Yearlings, \$11; twos, \$13.50, and threes \$16.50—Prospector.
